

Protect your mouth and braces with a **MOUTHGUARD**

A mouthguard specifically designed to fit over braces, made of 100% Medical Grade Silicone, will protect your mouth from lacerations and guard your jaw and teeth against impact damage.

ORAL LACERATION

Helps protect oral tissue from laceration by shielding the lips, tongue, cheeks and gums

BRAIN CONCUSSION

Helps protect your brain from concussion by dissipating the shock of a blow to the jaw

TMJ DISORDER

Helps protect your TM joints from dislocation and related injuries by properly supporting and cushioning the jaw

TOOTH INJURY

Shock-absorbing bumper helps protect teeth by absorbing and deflecting impact force.

JAW FRACTURE

Helps prevent jaw fracture by acting as a cushion between the upper and lower jaw
